- 22. Regarding mothers' sankirtan parties - Resolved: The philosophy that the man sankirtan leader is the eternal husband and protector of the women in a women's party is rejected. The philosophy of the man sankirtan leader as the representative of the spiritual master - and not the husband - should be preached instead.
- 23. Preaching Centers - Preaching centers in the U.S. can be opened by GBC members, even when in another GBC zone, upon approval at the yearly meeting of the GBC, or during the year with consultation of three GBC members. But when the zonal GBC is prepared to open a permanent center in that city, its jurisdiction will be transferred to the GBC in whose zone the city lies. The consideration must be made whether it is really better to have a permanent center there or a preaching center, such as those established by the Radha-Damodara Party. If the center is opened permanently, the Radha-Damodara Party will be allowed to continue their program in that city. The change from preaching center to permanent center can only be done in Mayapur.
