Dear Prabhua

Please accept my humble obeisances. All glories to Srila Prabhupada who we ardently pray will be re-established as the only real shelter of all fallen souls in this age.

I recently spoke to Rupanuga Prabhu and Tamal Krana Goswami who both suggested I send a copy of my compilation of Prabhupada's heaviest letters to some of the leading devotees. I don't know how much you are aware of my work but if you have not yet seen a DAS brochure then I'm sure if you asked around a little locally you will find one.

I wanted to briefly summerize some points for you now. As you may have heard I am in the midst of a campaign to prove that Kirtanananda has grossly deviated from the instructions of Srila Prabhupada and should be removed. To prove this I have been scrutinizingly studying Srila Prabhupada's books and letters on guru and marriage full time now for the past year as well as interviewing a lot of ex-New Vrndavana members. I have read through every single one of Srila Prabhupada's letters (in the BBT archives) and have picked out the most crucial ones to smash the present bogus situation in ISKCON. Tamal Krana Gosvami suggested that my research would be very valuable to the devotees in preparing the society's constitution. So I have compiled a 150pg book that contains these most significant letters and have sent copies to the grievance committee. They are presently trying to get Kirtanananda to return my children to me before I do something that could be very damaging to the society. Getting my children away from Kirtanananda is of course my duty as their father and is very important to me personally but that is not the main reason for compiling this book.

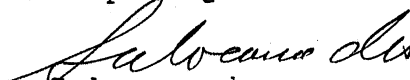

The real reason is that I am very anxious to see ISKCON purified of this guru problem and I know of only one method of doing this that nobody in his right mind can possibly deny. That is to take all of Srila Prabhupada's teachings from the letters, books and lectures (which are already on microfilm) and make a first class index and catagorization of them. (Not a compilation on guru like Subananda's that left out everything controversial). Most of this work can be done by the computers. Once under way the whole project will be complete in 3 months. Then Prabhupada's words have to be analyzed in terms of the times and circumstances that they were spoken since there appear to be so many contradictions. It's because of these

sampradya system of gurus. There is also an update on California's devotee communities outside of ISKCON.

After you have read this book I shall be contacting the research committee of Romapada Maharaja, Subananada Prabhu, and Ravindra Svarupa Prabhu to discuss the most efficient method by which to accomplish this indexing project before next year. I'm sure we are all eager to see this project completed before the end of the summer so there will be a little time to prepare for a real 500th birthday celebration for Lord Caitanya. I know it can be done if this project gets the full support of ISKCON but I also know that ISKCON will never push or finance this without a big fire being placed beneath them. Therefore if some serious communication is not started before June 1st, DAS will begin making preparations to accomplish this feat on its own, with money we receive from such places as '60 minutes' for interviews on the "RISE AND FALL OF ISKCON, (an insiders story)" worth \$10,000-\$20,000 to them. Of course my aim is not to destroy ISKCON or make money off of the confidential information in this book, but to help purify ISKCON. But if ISKCON will not cooperate to do this vital work immediately, then it will be evident that there is no serious interest in Srila Prabhupada's teachings within ISKCON. And if that is the case, then we ask you; is that "ISKCON" worth saving?

I will be printing these all at once so please send your check for \$10 immediately. Printing and posting will be on May 15th. If your check arrives late you will have to wait some time for the next printing. Make your check payable to Steve Bryant, not DAS. ISKCON checks or money orders are OK but no personal checks please. I am only sending copies of this letter to a dozen or so devotees in the USA and Canada so if those of you who receive this would like someone else to receive one you should contact them by phone and give them the information. I would eventually like all the temple presidents to receive one. Use a private address if your temple's mail is shuffled by other devotees. If you don't have a private address I can send it to your karmi name General Delivery at your nearest post office. This book is very heavy and exposes a lot of corruption about these "gurus" so I won't send to those who are not serious disciples of Srila Prabhupada. Please keep that in mind.

Your aspiring servant

Sulocana das
