I'm a Psychedelic Punk. We're punks that are heavily influenced by the Flower Power era, only instead of giving people flowers we give them Poison Ivy. We're a new generation gettin' into drugs like LSD, though I've stopped taking it meself. I had a few 'trips' that were all right but then I had a good one and that really freaked me out, man. Our bible is a book called 'Lord of the Ring Worm' and we have our own magazine too,

'Gandalf's Head-Bangers'. I'm really getting into this mystical bag, man. I'm even thinking of travelling overland to India to visit our Guru, Maharishi Shag Nasty. He's been lying on a bed of safety pins for 25 years. You've heard of 'Jacy in the Sky with Diamonds'? Our version is called 'Sheena in the shit wiv' f' all'. Hey man, it's a whole new scene. It's somewhere between 1977 and 1967.....about 1972 really.....
